“ Intunet are our facilitator for us to use the Internet's technology. We come up with ideas for them to develop, but they know things that we don't so they frequently make suggestions along the way. Our objective is to use the Internet to become more efficient, and that's where Intunet help us. ”

Bill Holmes - UK Fuels

“ For us, they've helped our business grow, which was the objective. They designed and built our web site but also gave us back-up. Thier performance has been very measurable, and their attitude flexible and down to earth. Of all companies we invited to pitch they stood out by their professionalism. ”

David Pedley - Wessex Training

---

“ They work quickly and to reasonable budgets, and are friendly people to work with. ”

David Lind - NYK Logistics

## Client Testimonials

“ It looks fantastic! I can't believe I am going to look this professional - I feel a bit of a fraud!

I just wanted to thank you and everyone at Intunet for all you have done for me in recent months. I am very pleased with the website, stationery and signature. It has made me think about my business and has been a very stimulating and interesting experience. ”

“ Actually I am really happy with that one looks great! I am very happy with it now and the alterations so yes we can go with this version . Thank you!

A nice and easy process forgot what that was like after dealing with the other company so thank you and your designer. ”

“ Regarding the web site my daughter found the original documents you / Intunet gave us for maintaining the prices page so we did this and it all worked very well. In fact my daughter and I have now realised just how user friendly the web site is to manage which I am sure we should have understood much earlier. It is only too easy for us all to criticise so please pass on our thanks for the easy way it has been designed for maintenance. ”

“ Thank you for your work building my website. www.blindwise.com. I found your company very easy to deal with, and worked out my requirements by listening to and adapting to my needs. The site looks great and is beginning to bring in work. I had been holding off saying 'I will get round to it, do I really need one?' But I did and I do!

I would have no hesitation in recommending you and Intunet. Thanks again. ”
